

AMENDMENTS TO SPECIFICATION

The Applicant requests amendment to the specification, as indicated by the markings on the enclosed substitute specification. Insertions are indicated by underlining. A clean copy of the revised specification, incorporating these changes, is also enclosed. The specification is amended in the following ways:

- A sentence is added at page 11, lines 23-26 to describe the reference number 19 designating the gap recited in claim 12.
- At page 10, line 24, the reference number 5 is added, and the word "suction" is added as an alternative to "vacuum".
- A reference number 7, designating the HP voltage source (recited in claim 18) is added to the text at page 10, line 25 and on page 12, lines 4 and 7.
- At page 15, beginning at line 27, a paragraph has been inserted to capture the text that was present in claim 24 as originally filed.
